Modern History		Software Design & Development	Chemistry	Standard Mathematics				
		Sport, Lifestyle & Recreation	Earth & Environmental Science	PDHPE				
			Visual Arts					

### E-learning

Modern History

Legal Studies

Engineering Studies

Society & Culture

**Note:** E-learning subjects are offered as an alternative to face-to-face lessons. Students study material online and meet with their teachers once a week to check up on their progress. This style of learning allows for greater flexibility around subject choices, however, students need to be motivated and able to work with minimal supervision.
